Hiranomoe presents.

[illegible]

Hello, Saphire here ^_^

I don't normally write release notes, but since today is not an ordinary day I felt like writing one.

Why not normal? you may ask. With this chapter release, we are really excited to announce some of the biggest news in the history of Hiranomoe today: **Hirano-matsuri!** It's a festival we hope to hold once every year on the same date.

We have also opened a new section of our forum which, we hope, will give loyal fans a better chance to support Hirano and his works.

Hiranomoe has always been a strong advocate of giving readers the best translation for all our projects, which will still be our main focus for the year. We will continue to work hard toward popularizing Hirano-sensei's older works, along with his current (and future) works in the easter.

Finally, I'd like to extend an enormous thanks to the people who have helped Hiranomoe reach this point—our (not-so-patient) readers and the extraordinarily talented group of staff who have worked so hard to bring Hiranomoe to this point: Aurian, Chrono, Hellsingirl, HellsFalling, Makoro.

So, whether you've been a part of the Hiranomoe community since the beginning, joined recently, or have just followed us from the sidelines, we really appreciate your interest in the Hiranomoe and specifically, Hirano. We hope you will keep support of this wonderful artist by any means, like we, Hiranomoe, will always do.

Saphire Diablo,
A proud fan.
